About

Computer Science graduate with experience in IT support, operations, and workflow automation. I build practical workflows that connect everyday tools, including a Telegram chatbot that handles enquiries, updates customer records, and creates calendar bookings. I also bring more than two years of executive support experience.

Skills and Tools

Workflow automation, technical troubleshooting, process documentation, data accuracy, and customer support.

n8n, Telegram, Google Sheets, Google Calendar, Google Workspace, Microsoft Office, HubSpot CRM, Notion, and WordPress.

Featured Project

Telegram Appointment Booking Chatbot

- Built an n8n workflow that answers service enquiries in Telegram, updates customer records in Google Sheets, and creates bookings in Google Calendar.

Additional Projects

AI UGC Ads

- Created AI-generated UGC ads using product briefs and AI presenters.

HeyGen Spokesperson Video

- Created a branded spokesperson video in HeyGen from a spoken script.

Cinematic AI Music Teaser

- Produced a cinematic AI teaser with visuals timed to the music.

SaaS Product Demo

- Created a narrated video that walks viewers through a software workflow.

n8n Workflow Repair

- Worked on an n8n workflow repair for duplicate posts from spreadsheet rows.

Vapi AI Receptionist

- Built an AI receptionist in Vapi for FAQs, bookings, and call transfers.

Make Social Media Automation

- Built a Make workflow for publishing approved social media posts.

ManyChat Instagram Automation

- Built a ManyChat workflow that turns comments into direct messages and captures leads.

Professional Experience

Customer Relations / Sales Representative

JIU JIU Rental Network, Sep 2025 – Feb 2026

- Interpreted customer inquiries about products, payment plans, and service options, then provided clear answers and follow-up support.
- Maintained accurate customer records and sales documentation for the team.

Administrative Assistant / Secretary

Power Permutations LTD, Jul 2025 – Sep 2025

- Processed invoices, purchase orders, and financial requisitions and maintained installation, equipment, and maintenance records.
- Coordinated communication between clients, suppliers, and engineers to keep project information current.

IT & Administrative Support

Ministry of Interior, Jun 2024 – Jul 2025

- Troubleshot staff system issues, performed routine maintenance, and trained staff across departments on digital tools.
- Supported day-to-day operations and maintained documentation used across departments.

Executive Assistant

Faith Heroic Generation | Jan 2022 – Mar 2024

- Drafted letters, confidential correspondence, and financial and administrative reports for leadership review.
- Managed executive calendars, screened inbox communications, and maintained filing systems and project records.
